## Overview

---

StockCharts provides data for a select group of economic indicators. Depending on the data series, these are updated on a weekly, monthly, or quarterly basis. For example, chartists can plot weekly Initial Jobless Claims (\$\$UNEMPCIN) or monthly Non-farm Payrolls (\$\$EMPLOY). These can then be compared to the S&P 500 for analysis.

## Details

---

**Symbol Group:** Economic Indicators

**Publisher:** Federal Reserve Economic Data (FRED)

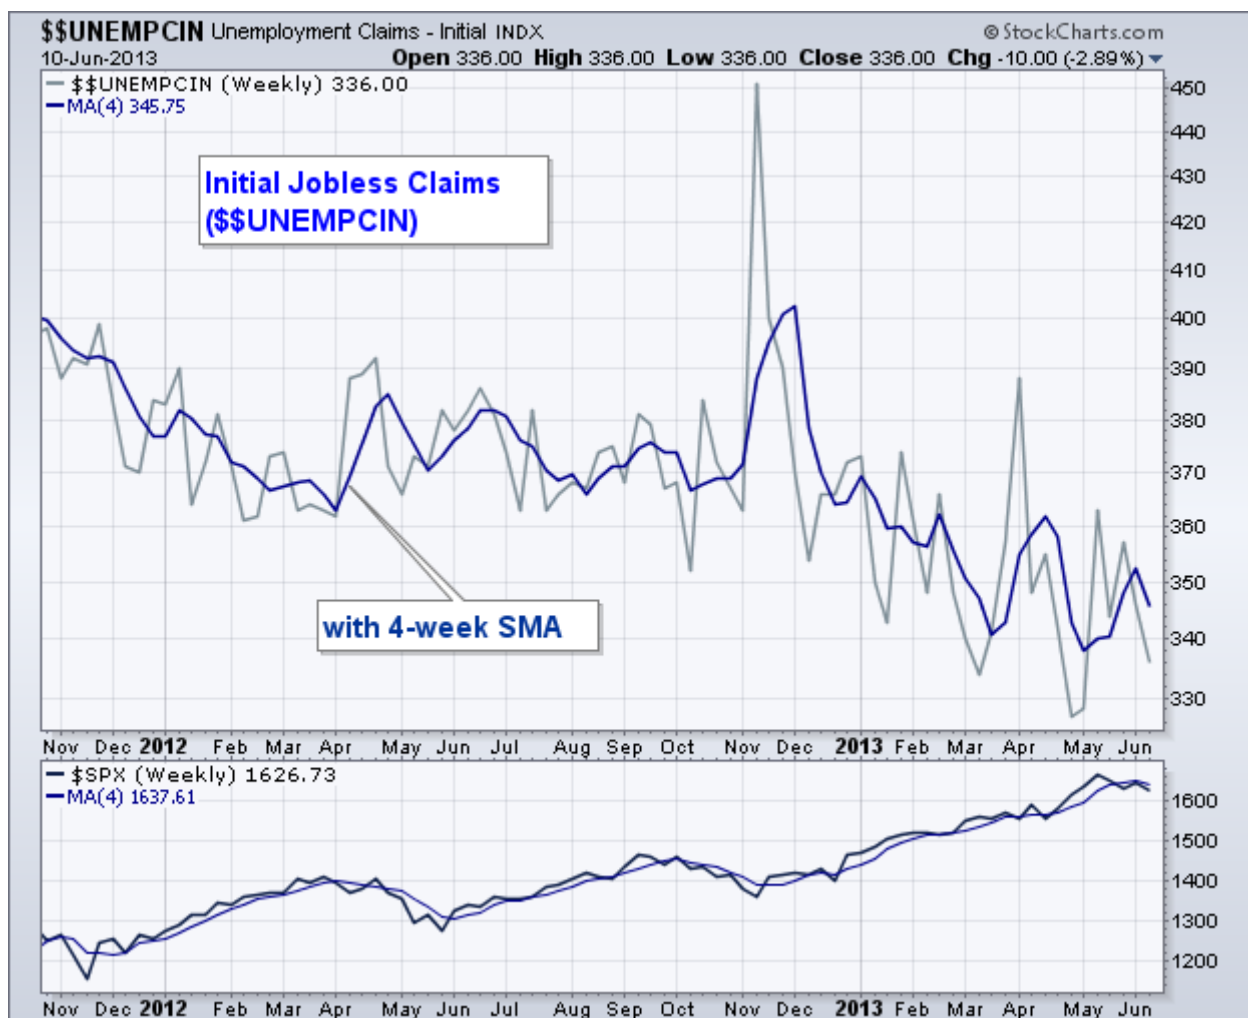

**Update Frequency:** Weekly, Monthly, or Quarterly
