Bloomberg Commodity Indices

Table of Contents

• Bloomberg Commodity Indices

Overview

The Bloomberg Commodity Indices, formerly known as the Dow Jones-UBS Commodity Indices, track a single commodity or group of related commodities. For example, there are single commodity indices for coffee, sugar, and cotton. These three commodities are considered "softs" and are part of the Bloomberg Softs Subindex, a group commodity index.

Details

Symbol Group: Bloomberg Commodity Indices

Publisher: Bloomberg Finance

Update Frequency: Intraday

Current Symbols: Catalog link

Characteristics

Some of these indices have the words "total return" in their name. A total return index includes any distributions, such as dividends, to provide a more realistic picture of investor return.
